CUSHIONS GENTLY

Doorstop/damper MILLIE ensures that doors and windows last a long time

Crash, bang, boom: The window slams shut with a loud crash. Or the door slams into the lock because your child has jumped against it in playful exuberance. With our MILLIE doorstop/damper, you can prevent injuries to your offspring as well as damage to doors and windows.

Once attached to the door handle or the window handle, it cushions such unplanned "attacks" with ease thanks to hard-wearing and flexible foam.

Technologies

- The soft material stops the door panel from being damaged
- Simply hangs from the door handle

Operation and use

- Prevents doors from shutting
-
