Hyban 2.0 LED signal silver shiny M

VISIBLE EVERYDAY HERO

With the Hyban 2.0 LED, you have double the safety: Once due to the robust hard shell and once due to the high visibility.

Thanks to the LED light on the front and back of the city helmet, you are visible to other road users from all sides - whether during the day or at night. The Hyban 2.0 LED is the ideal companion for everyday life and serves as reliable head protection on the way to work or out and about in the city. The helmet is also very comfortable to wear while doing so, due in part to the full ring inside the helmet. It fully encircles the head and can be adjusted via the adjustment wheel. In this way, you can determine your optimum fit. Additionally, there are air holes that prevent heat build-up under the helmet and many other practical features.

Technologies

- ABS hard shell: Robustly constructed helmet made of EPS and injected outer shell
- High visibility: High visibility due to bright reflectors
- Bug mesh: Thorough protection against insects
- Ponytail compatibility: Helmet well suited for ponytail wearers
- Full ring: Fully enclosing plastic ring connected to the adjustment system
- XL Size: Large helmet size available (62+ cm)
- Ventilation: Optimal ventilation for this helmet type with 5 air inlets and 8 air outlets
- Zoom Ace Urban: Fine-adjustable adjustment system with non-slip adjustment wheel for individual fit
- Front and rear light for 360° visibility
- 3 light modes: Eco Mode, Eco Flash Mode (flashing) and Power Flash Mode (flashing)
