

HIGH-LEVEL BIKE SECURITY

The BORDO GRANIT™ 6500KA secures your bike in the best possible way: with an alarm system, strong steel bars and built-in XPlus precision disc cylinder.

This folding lock doesn't have the highest ABUS security level rating of 15 for nothing. The 5.5 mm bars of specially hardened steel are connected with special drill resistant rivets. The ABUS Link Protection Shield ensures that these rivets serve as a robust protective shield against sawing attacks. They also make the lock more flexible. The ABUS XPlus cylinder boosts security with the highest possible protection against manipulation attempts, e.g. picking.

The BORDO™ 6500KA is also an alarm lock that triggers a 100 dB warning tone in the event of movement. But thanks to the intelligent ABUS alarm system, your neighbours will no longer despair of constant false alarms. The full alarm is only activated in the event of a suspected attack - accidental knocks and movements, on the other hand, only trigger a short, 5-second warning.

Technologies

- 5.5 mm thick bars with soft-touch coating to prevent damage to paintwork
- The bars and body are made of specially hardened steel
- Alarm function with at least 100 dB for 15 seconds followed by automatic reactivation
- 3-D positional alarm detection - detects shocks and movements in all dimensions
- Smart alarm - the lock only emits a small warning tone in the event of small and short shocks, e.g. if a football hits the bike
- ABUS Link Protection Shield for high protection against attacks on the joints

BORDO™ GRANIT 6500KA/90 black SH

Seite 2 von 2

- incl. holder (SH)
- ABUS XPlus cylinder for the greatest protection against manipulation, e.g. picking
- Acoustic signal indicates battery status and active status
- Transport position allows for the lock to be folded for transport without activating the alarm.
- Alarm position - insert locking bar completely; the alarm will be activated after locking
- Speaker protected from attacks by locking bar.
- Incl. SH lock carrier for transport on the bike

Usage

- Excellent protection where the risk of theft is high
- Ideal for protecting high-value bicycles
