

Steel-O-Chain™ Ivy 9100/110 black

Technologies

- 10 mm square chain with a functional, durable and highly flexible synthetic fibre sheath to prevent damage to paintwork
- The sheath offers very high protection against abrasion and does not absorb any liquids e.g. water or oil
- The chain, the lock body and supporting elements of the locking mechanism are made of specially hardened steel
- Ergonomically shaped lock body
- High-quality locking cylinder for maximum protection against tampering, e.g. lock-picking
- With a user-friendly reversible key
- Two keys are supplied in the scope of delivery

Usage

- Great protection where there is a low risk of theft
- Recommended for protecting lightweight motorbikes and scooters
- The longer the chain, the easier it is to attach to a fixed object

Tips

- Lock-chain combinations are a very good way of attaching motorbikes to fixed objects
- Very easy to use, because only one end of the chain has to be locked
- To limit the possibilities of brutal attacks, it is recommendable to avoid laying the chain on or close to the ground
- For secure transportation we recommend the Transport Bag ST1010 (only fits 110 and 140 cm chain lengths)
