

GRANIT™ Extreme Plus 59/12HKS140

Technologies

- 12 mm hexagonal chain with textile sleeve to protect against damage to the paintwork
- ABUS Power Link technology (patented) allows for a direct and protected connection from the chain to the locking mechanism
- The chain, the housing and the structural parts of the locking mechanism are manufactured from specially hardened steel
- ABUS XPlus Cylinder for extremely high protection against manipulation such as picking
- Two keys included in the scope of delivery, one of which is LED lit
- Manually operated keyhole cover to protect against dirt and corrosion
- ABUS Code Card for duplicate and replacement keys

Usage

- Very good protection against high risk of theft
- Recommended for securing high-value motorbikes
- The longer the chain length, the easier it is to attach to a fixed object

Tips

- You can order several one-key-fits-all locks. That means you can use a single key or closure in conjunction with multiple locks
- Lock-chain combinations are a good solution for attaching motorbikes to fixed objects
- Very easy handling, because only one end of the chain has to be locked
- To limit the possibility of brutal attempts to smash the chain, it is best not to place it on or near the ground

GRANIT™ Extreme Plus 59/12HKS140

Technical Data - GRANIT™ Extreme Plus 59/12HKS140

Carrier	without bracket
EAN	4003318565595
Locking type	key
Security Level Motorbike	20
Weight [g]	4700 g
chain length	140 cm
chain thickness	12 mm
design color	black
