## THE KEY IS ALWAYS IN YOUR HEAD

A secure companion as a combination lock: The BORDO Combo™ Lite 6150 Foldable Lock comes into its own when any dead weight is too much.

On a sporting tour around the lake or when cycling to meet friends: sometimes having stuff to carry - even just a key - is annoying. The BORDO Combo™ Lite 6150 Foldable Lock makes it easy for you. A four-digit, freely selectable number code secures your bike, while you keep the key in your head. The two-component number reels guarantee the long-term readability of the digits. Stowed away in a small bag on the frame - attached either with rubberised anti-slip Velcro straps or directly to the threaded holes of the bottle holder - the BORDO Combo™ Lite 6150 Foldable Lock is always at hand and never in the way.

## Technologies

- Special steel design, with colour-coordinated plastic casing to prevent damage to paintwork
- The bars and housing are manufactured using particularly lightweight materials and steel alloys
- Bars connected with special rivets
- Two-component number reels guarantee long-term readability of the digits
- Individually configurable code

## Usage

- Outstanding protection in situations where the risk of theft is low to medium

## Tips

- The combination lock is great for use by several people
