

THE BRASS CLASSIC

Our 55 padlock made from brass is one of our classic locks for a number of use cases.

The lock body on the 55 brass lock is made of solid brass. The hardened steel shackle and internal parts made of non-corrosive materials ensure the lock's durability. Inside is a precision pin cylinder with mushroom counter pins. The exterior is protected from wind and weather. It locks without a key by pressing down the shackle. The application possibilities are wide-ranging: For example, you can use it to secure loop cables or to secure doors, gates, cabinets, lockers, tool boxes, basement windows, sheds, switchgear, or barriers.

Technologies
