

HARD SHELL AND HARD CORE

With the Steel-0-Flex™ 950, treat your high-quality bicycle to maximum security

25mm steel sleeves are normally reserved for cable locks to secure good-quality bikes. With the Steel-0-Flex™ 950, you are now playing in the same league when it comes to securing your bicycle. Specially hardened steel of that thickness is always a difficult target for thieves.

The built-in ABUS Plus cylinder is also protected against tampering such as picking. And to make sure you can get the most out of your Steel-0-Flex™ 950, the keyhole is concealed by a manual cover to protect it against dirt and corrosion.

Technologies

- 25 mm thick, overlapping steel shells protect the internal steel cable
- Synthetic coating to prevent damage to the bicycle's paintwork
- The steel shells, the case as well as supporting elements of the locking mechanism are made of special hardened steel
- ABUS Plus cylinder for high protection against manipulations, e.g. picking
- Manually operated cover for the keyhole against dirt and corrosion

Operation and use

- Good protection at medium theft risk
- Recommended for securing good bicycles

Steel-0-Flex™ 950/80

Seite 2 von 2

-
- The longer the cable, the easier the bicycle can be locked to a fixed object

Tips

- Due to the steel shells, the Steel-0-Flex™ locks reach a significantly higher security than common cable locks, yet maintaining high flexibility (Double Protection)

Technical data - Steel-0-Flex™ 950/80

Locking type	key
Weight [g]	1400 g
alarm function	No
color of facets	black
design color	black
type of cylinder	Plus
EAN	4003318257148
