

# My first ABUS 1505/55 green

## Technologies

- 4 mm thick steel cable, extra soft braided, prevents the cable from springing back when opened
- Playfully easy handling for children with an automatic cylinder which closes on both sides
- Child-friendly ergonomics of the key and lock body
- Specially suited children's design in three colour options
- Two keys with a colourful keyring are included in the scope of delivery

## Usage

- Basic protection against theft for children's bikes

## Tips

- This children's lock is also available as a chain lock
- My First ABUS is ideal for use as a children's training lock
