

# Roll Up Adapter

Page 1 of 1

## Technologies

- 14 mm steel bolt
- Excellent grip thanks to the rubberised ring
- The bolt, lock body and supporting elements of the locking mechanism are made of specially hardened steel
- The round shape hinders the use of opening tools
- ABUS XPlus cylinder for exceptionally high levels of protection against manipulation attempts such as picking
- Two keys are included in the scope of delivery, one of which is an LED torch key
- ABUS Code Card for additional and replacement keys
- A Memory Cable that acts as a reminder against accidentally driving away with the motorbike still locked is included in the scope of delivery. With the “Roll Up” version, it is integrated into the bolt

## Usage

- Great protection where there is a high risk of theft
- Recommended for protecting high-value motorbikes

## Tips

- You can order several one-key-fits-all locks. That means that a single key or mechanism can be used for several locks
- Brake disc locks are a very compact category of motorbike locks and are therefore easy to transport
- To increase security during longer parking times, you should lock your motorbike to a fixed object with an additional lock
- This lock is also available in a chain combination
- For very narrow spaces between bolt and fork, a version with a half bolt head is available
