ZL Standard Security

Art.-Nr. 501534 Seite 1 von 2

This reliable and robust cylinder provides secure, controlled and convenient access. It was specifically designed for use with panic doors with automatic reset of the locking nose. It is operated using the read-protected ABUS Seccor chip key. The cylinder has additional plating for even greater protection against attempted break-ins.

Technologies

- Electronic cylinder with chip key reader
- Internal mechanical components and electronics for maximum durability
- Simple installation without drilling for easy retrofitting
- · Infinitely variable length adjustment by means of profile cylinder adapter
- Acoustic signa
- Extremely tamper-proof cylinder thanks to ABUS Security drill protection
