

External electricity supply ESE

Art.-Nr. 501656

Seite 1 von 1

If the power supply for a door system is no longer sufficient in spite of timely warnings, the external ESE electricity supply is a practical tool which can supply the corresponding door system quickly and reliably.

Technologies

- External electricity supply for enabling locking systems

Technical data - External electricity supply ESE

Height	30 mm
Housing material	plastic
Length	113 mm
Max. humidity	80 %
Max. operating temperature outdoors	40 °C
Min. operating temperature outdoors	0 °C
Net weight	0,1747 kg
Width	68 mm
