

Comfort lock for ZL

Security Tech Germany

Art.-Nr. 501675

Seite 1 von 1

The comfort lock for the ZL cylinder ensures that leaving the premises occurs more quickly and easily. Simply close the door, turn the knob in the pre-defined direction and the job is done.

Technologies

- Comfortable locking without prior key insertion
- Locking direction can be set to left/right on installation
- Not suitable for ZL with double-sided reader
