

Art.-Nr. PPDF16000

Seite 1 von 4

The ABUS OneLook video surveillance set is a complete set with a full HD 1080p wireless outdoor camera and a 7" colour touchscreen monitor for monitoring indoor and outdoor areas, both during the day and at night. Simple, intuitive installation with brilliant image quality.

Secure, wireless transmission via digital radio

All data (video and audio) is transmitted to the monitor wirelessly via encrypted digital radio. This provides a protected transmission path whilst simultaneously avoiding malfunctions and interference. This is primarily reflected in the transmission quality and the good range, meaning it is not necessary to lay cables over long distances. The camera supplied is in protection class IP66, making it suitable for outdoor use; it also provides clear images, even at night, thanks to its integrated infrared LEDs.

You decide how and when images are captured

As soon as the camera detects movement, it sends video and audio signals to the wireless monitor with touchscreen, where the recording is saved to an SD card (max. 128 GB microSD card; required accessory). However, there is also the option of continuous recording or pre-defining a recording schedule.

Individually extensible

To turn the set into a video surveillance system, up to four cameras (PPDF14520) can be connected to the monitor and then displayed in the 4x view.

Art.-Nr. PPDF16000

Seite 2 von 4

Mobile access also possible via the app

ABUS' free OneLook app also allows users to access video data from a distance. The app is available from the Apple App Store or from the Google Play Store for iOS and Android.

The effective IR range will depend on the installation location.

Technologies

- Complete set consisting of a full HD 1080p wireless outdoor camera (IP66) and 7" monitor
- Video and audio transmitted via encrypted digital radio
- Outdoor camera with PIR sensor for reliable motion detection
- Full HD 1080p resolution and infrared night vision function for brilliant image quality
- 7" colour monitor with integrated loudspeaker and battery capacity for up to 2 hours of mobile use
- Easy operation via touchscreen and user-friendly control menu
- Mobile access via free app
- User-friendly, intuitive setup of remote access to the camera (LAN connection required)
- Can be extended to include up to three wireless cameras (item number: PPDF14520,PPDF14520W)
