COMPACT AND LIGHTWEIGHT

Our TL-525 torch provides light in the dark with high-quality LED lights

Ideal for the handbag, the backpack or the glove compartment in the car or camper: Our TL-525 torch will help you find your way in the dark and retrieve dropped items instantly. Practical: It can be put down anywhere without rolling off the table, bonnet or other smooth surfaces because of its square shaft. Thanks to the holster or optionally the loop on the shaft, you can hang it on a hook so that it can be stored and save space. The integrated red light function is useful for long journeys or flights, for example, when you do not want to disturb fellow travellers: This allows you to relax and continue reading without disturbing others with too bright a light.

Technologies
