

Safety vest JC6800 LEON yellow M

Seite 1 von 2

Is it dawning?

Then quickly put on our yellow LEON safety vest!

Yellow, more yellow, most visible: Kids are well protected with our LEON safety vest, especially in the autumn and winter months. Simply pull it over your jacket and you're done. This way, your son or daughter will be seen very well by other road users within a radius of around 150 metres with 360 degree visibility in adverse weather conditions, at dusk or in the dark. LEON is made of high-quality materials and is therefore very durable. In addition to the strong luminosity, also due to the four reflective strips, you can also attach our LED lights NILS or LINUS to the ABUS strap on the back. LEON is suitable for daytime and night time use and is tested according to the European Standard EN 17353:2020.

Technologies

- UV-resistant material (meets the requirements of the European standard EN2471), shines even after years of use.
- Four highly reflective stripes for very good visibility at night, but also very good visibility during the day.
- Visibility: 150 m
- Tested according to European Standard EN 17353:2020 (AB3)
- Branded zip ensures a good fit on the body

Operation and use

- Very good 360-degree visibility during the day, at twilight and at night due to very large reflective area
- Very good fit thanks to smooth-running branded zip

Tips

- An LED rear light can be easily and securely attached to the ABUS bracket, for example JC6540 LINUS or JC6520 NILS

Variants

- Size: S (111 to 122 cm), M (123 to 134 cm)
