

A LOCK MADE FOR LITTLE HANDS

It makes bike safety fun! The My first ABUS 1510 Security Department is just the right lock for all young cyclists.

Young cyclists cannot learn about road safety early enough. Of course, this also includes correctly connecting your own bicycle and protecting it from theft.

ABUS accompanies young beginners on these first important steps with the My first ABUS 1510 Security Department. This chain lock not only has numerous child-friendly functions that make handling it playfully easy. If the lock also looks like a police car, learning is even more fun.

Technologies

- 4 mm thick square chain with textile sleeve that prevents damage to paintwork
- Very easy handling due to automatic cylinders closing on both sides
- Two reversible keys and lanyard

Technical data - My first ABUS 1510/60 Security Department
