

GRANIT™ 68 Victory + 12KS 120 Black Loop

HARD STEEL AGAINST THIEVES

ABUS GRANIT™ 68 Victory 12KS Black Loop - the protection level of a brake disc lock, ingeniously complemented by the flexibility and security plus of a chain solution.

This combination shines with hardened special steel and the tamper-proof ABUS XPlus locking cylinder. The loop-optimised reach also leaves plenty of freedom when connecting to a fixed object. No wonder the GRANIT™ 68 Victory 12KS Black Loop has been awarded a security level 17.

Extend your ABUS protection by ordering this lock keyed alike with other locks, e.g. for your bicycle and your shed door. This way you enjoy the same level of security everywhere - with just one key for everything.

Technologies

- 12 mm strong loop chain with textile sleeve to prevent damage to the paintwork
- 14 mm locking bolt
- The chain, the locking bolt, the lock body and the structural parts of the locking mechanism are manufactured using specially hardened steel
- ABUS XPlus cylinder for incredible protection against manipulation, e.g. picking
- Two keys are included in the scope of delivery
- ABUS Code Card for additional or replacement keys

Operation and use

- Very good protection where the risk of theft is high

GRANIT™ 68 Victory + 12KS 120 Black Loop

Seite 2 von 2

- Recommended for securing valuable motorbikes
- The loop chain enables you to use the full length of the chain and therefore provides a flexible connection

Tips

- You can order several one-key-fits-all locks. This allows you to use a single key or locking mechanism in conjunction with multiple locks
- Especially practical to use, as only one end of the chain needs to be locked
- 2-in-1 – the lock can also be used when separated from the chain
- We recommend the transport bag ST 1010 for protection during transport

Technical data - GRANIT™ 68 Victory + 12KS 120 Black Loop

Locking type	key
Weight	4500 g
