

GRANIT Steel-O-Flex XPlus™ 1025/100

Technologies

- 27 mm thick, overlapping steel shells protect the internal steel cable
- ABUS Power Cell technology offers the highest level of protection against impacts and attempts to break open the lock
- ABUS Power Link technology enables the cable to be connected directly to the Power Cell
- Interwoven coating of the lock body
- The shells, body and the structural parts of the locking mechanism are made of specially hardened steel
- ABUS XPlus cylinder for the highest level of protection against tampering, e.g. picking
- Automatic cover to protect the keyhole from contamination and corrosion

Tips

- The lock can be ordered keyed alike with other locks, all of which are operated using the same key or locking method
- Due to the steel shells, the Steel-O-Flex™ locks reach a significantly higher security than common cable locks, yet maintaining high flexibility (Double Protection)
