

GRANIT Steel-O-Flex™ 1000/100

Technologies

- Overlapping steel sleeves with a diameter of 25 mm protect the inner steel cable
- PVC coating to prevent damage to the paintwork
- The steel sleeves, the enclosure and the structural parts of the locking mechanism are manufactured using specially hardened steel
- ABUS Plus cylinder for incredible protection against manipulation, e.g. picking
- Two keys are included in the scope of delivery – one of which is an LED torch key
- Automatic cover for the keyhole to protect against dirt and corrosion
- ABUS Code Card for additional or replacement keys

Tips

- You can order several one-key-fits-all locks. This allows you to use a single key or locking mechanism in conjunction with multiple locks
- The steel sleeves mean that Steel-O-Flex™ locks are significantly more secure than simple cable locks and also offer greater flexibility
