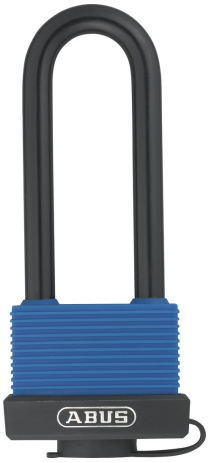
70IB/50HB80



SET SAIL AGAINST RUST!

The perfect lock for outdoor use not only on the high seas, but everywhere where there are often strong weather influences: our Aqua Safe 70IB.

The ABUS 70IB Aqua Safe marine padlock not only reliably protects your valuables from theft, but also surfaces of boxes, equipment, machines and the like from scratches. The extremely weatherproof Aqua Safe 70IB from ABUS is made from a solid brass lock body coated in plastic to protect sensitive and adjacent surfaces. Because at sea in particular, a padlock can bounce back and forth depending on the weather conditions. The hardened steel shackle also has an impact-resistant synthetic coating. In addition, a special protective cap ensures that water spray and dirt cannot penetrate into the locking mechanism. This makes this padlock ideal for securing valuables outdoors, whether by the sea or elsewhere.

Technologies

- Solid lock body made from brass
- Stainless-steel shackle for extra-special corrosion protection
- Sealed lock body with special protective cap and drainage channels to protect the locking mechanism from water and dirt
- Shock-absorbing plastic casing protects sensitive surfaces
- Double bolted
- Precision pin cylinder
- Paracentric key profile for increased protection against manipulation
- Inner components made from rust-free materials
