

## 83WPIB/53

### Technologies

- Lock body made of solid brass
- Stainless-steel shackle
- As required, either automatic locking = locking without a key by pressing down on the shackle, or key-retaining = locking only with a key (Z-bar)
- Extremely weather-resistant due to the full plastic coating, including cylinder protection and sealed shackle holes; drainage channels transport moisture that has penetrated the lock back out
- Shackle can be exchanged within seconds
- RK: cylinder can be re-keyed to match an existing key
