

# GRANIT™ Plus 640/135HB150 red

## Technologies

- Hardened 12 mm round shackle
- The shackle, the lock body and the structural parts of the locking mechanism are manufactured using specially hardened steel
- Priority given to the use of weight-optimised special alloys and lightweight materials
- ABUS Plus cylinder including automatic cover for maximum protection against attempts at manipulation, e.g. picking

## Tips

- The lock can be ordered with other keyed-alike locks, all of which are operated using the same key or locking method
