

Bed guard JC9100 ERIC white

Seite 1 von 1

FIDGETY AND RESTLESS BABIES?

Our ERIC bed guard secures the side of the bed!

So that you don't have to worry about your baby falling out of bed while rolling around at night, our ERIC bed guard can be a useful option. It is pushed under the mattress at a 90 degree angle so that it finds stable support. It also folds up quickly, making it ideal for home and travel. For example, if your child often stays overnight with grandma and grandpa or uncle and aunt.

Technologies

- Sturdy construction
- Easy to assemble and dismantle: perfect for at home and away
- Cover: high-quality silk, washable at 30 degrees Celsius

Operation and use

- Stops children falling out of bed
