

Strike plate SBK silver (LR 20)

Seite 1 von 2

SECURITY FOR YOUR HOME

Flat and interior doors can be reliably secured with this strike plate.

In combination with a mortice lock, strike plates are part of the basic equipment for your house and flat doors in terms of security. This steel strike plate is suitable for DIN right and DIN left flat end doors and other interior doors. Any breakthroughs that occur as a result of mounting on your walls can be concealed with the plastic cover supplied.

Technologies

- Steel strike plate
- With an additional plastic inlay to optically cover the opening in the frame of the latch and bolt

Operation and use

- For apartment doors/internal doors
- For DIN right and left doors

Variants

- Finishes: hammer blow gold, silver lacquered, white
