PROTECTS FROM FOREIGN EYES

Expand your HomeTec Pro wireless keypad with this reliable privacy cover.

When you enter your PIN at the ATM, always make sure that no one can spy on these secret numbers. You can also protect the code input terminal of your HomeTec Pro wireless keypad against unauthorised viewing. This privacy cover prevents third parties from reading the code and is protected against weather-related influences. In addition, the privacy cover ensures better readability in direct sunlight. Assembly is child's play: Position, snap into place, done!

Technologies
- Ensures improved readability of the keypad in strong sunlight
- Protection against weather-related influences (e.g. rain, pollen, dust)
- Easy installation: put on, clip in, done!

Operation and use
- Protection against reading from unauthorized third parties

Variants
- Colours: silver, white
