

The wall/ceiling mount set is an accessory for motion detectors. It ensures safe installation. Installed at a height of 2.5 m, the motion detectors cover an area of up to 15 m x 15 m. The wall and ceiling mounting set gives you installation flexibility. Whether fitted to wall, ceiling, or in a corner: This set can be fitted easily anywhere. The maximum angle setting is  $\pm 45^\circ$  horizontally and  $+6^\circ$ - $17.5^\circ$  vertically. The wall/ceiling mounting set is suitable for the following motion detectors: motion detector ECO, motion detector PROFI VdS, motion detector DUPLEX VdS, motion detector DUPLEX MW VdS, and motion detector TRIPLEX MW VdS.

## Technologies

- Flexible installation options for walls, ceilings and corners
- For ABUS motion detectors BW8000, BW8010, BW8020

## Technical data - Wall/Ceiling Mount

Height	60 mm
Installation location	Wall, ceiling, corner installation
Length	230 mm
Width	120 mm
