

# Video Combination Cable 50 m

Art.-Nr. KA9002

Seite 1 von 1

Use the video combination cable to connect individual components and ensure high-quality data transmission. The two integrated power wires (2x 0.75mm<sup>2</sup>) supply connected equipment with electricity. The cable impedance is 75 Ohm. The video combination cable is available in three lengths: 50 m (KA9002), 100 m (KA9001) and 250 m (KA9000).

## Technologies

- Combined cable for video image and power supply
- Coaxial cable with 75 Ω impedance
- Power line 2 × 0.75 mm<sup>2</sup>

## Technical data - Video Combination Cable 50 m

|                            |                                |
|----------------------------|--------------------------------|
| AC voltage supply          | 24 V                           |
| Cable length               | 50 m                           |
| Cable type                 | Combined video cable           |
| Cores                      | RG59 + 2x 0,75 mm <sup>2</sup> |
| DC voltage supply          | 12 V                           |
| Diameter                   | 0,75 mm                        |
| Housing material           | PVC                            |
| Intended use               | indoors                        |
| Max. operating temperature | 70 °C                          |
| Min. operating temperature | -10 °C                         |
| Outer diameter             | 9,1 mm                         |
