

Mounting bracket for IR illuminator

Art.-Nr. TVAC31700

Seite 1 von 1

The TVAC31700 Mounting Bracket is an additional, optional accessory for the ABUS TVAC71070 LED Infrared Illuminator. It is used for the professional wall installation of the infrared illuminator for stepless horizontal alignment. The robust stainless steel construction enables secure and stable installation in both indoor and outdoor areas. Note: From summer 2019, ABUS surveillance cameras will also be available with black housing. Please contact us to discuss.

Technologies

- Additional mounting bracket available for a TVAC71070 IR Illuminator
- For horizontal pivoting of the IR illuminator up to 180°
- Stainless steel, black powder coated
