

FOR HIGH SAFETY REQUIREMENTS - WATER-PROTECTED

The 83WPIB brass padlock is completely weatherproof and is ideal for outdoor use or use on boats and ships.

Thanks to the plastic-coated lock body made of solid brass and the rust-free shackle made of hardened stainless steel, the lock is extremely resistant to corrosion and weathering. The cylinder protection with drainage channel, which removes moisture that has penetrated the lock, also makes the ABUS 83WPIB padlock a reliable and durable companion.

Technologies

- Lock body made of solid brass
- Stainless-steel shackle
- As required, either automatic locking = locking without a key by pressing down on the shackle, or key-retaining = locking only with a key (Z-bar)
- Extremely weather-resistant due to the full plastic coating, including cylinder protection and sealed shackle holes; drainage channels transport moisture that has penetrated the lock back out
- Shackle can be exchanged within seconds
- RK: cylinder can be re-keyed to match an existing key

Usage

- To secure assets and objects of greater value or those at a high risk of theft
- Suitable for industrial or commercial doors/gates, warehouses, trailers, containers and garages
- Ideal for severe weather conditions (e.g., in sea and port areas)

Variants

- Size: 53 mm

Technical Data - 83WPIB/53 KA

Depth e	34,5 mm
Height f	96 mm
Horizontal clearance b	23,5 mm
Keyed alike	Yes
Locking type	key
Security Level Home Security	8
Shackle diameter d	8 mm
Vertical clearance c	27 mm
Weight	344 g
Width a	57 mm
color	blau
color of facets	blue
EAN	4003318560484
