

BORDO™ 6000PZ/90 black SH w/o Cylinder

Security Tech Germany

Seite 1 von 2

THE CLASSIC - NOW EVEN MORE INDIVIDUAL

The BORDO™ 6000 has become a classic over years.

With its simple yet genius design, the folding lock has won over everyone who wants security, flexibility and a compact pack size. The 5 mm steel rods, connected by special rivets, can be folded like a folding rule. A clear message to potential thieves: There's not much to do here. A clear message to our customers: The classic can now be combined with the front door, garage or shed.

With an ABUS locking cylinder from our home security range. Simply choose the lock cylinder from your house or flat door. Then open and close your BORDO™ 6000 with the same key.

Alternatively, you can select the BORDO™ 6000PZ with the built-in EC550 cylinder directly from our range and have a matching cylinder made for your home to go with it. So whether you've already installed a cylinder and now need a lock for it or are buying a lock and need to change the front door cylinder - we have the right product in our range.

Technologies

- 5 mm bars with extra-soft two-component casing to prevent damage to paintwork
- The bars and body are made of specially hardened steel
- Bars are connected by special rivets
- Manual cover to keep dirt off
- Suitable for various half cylinders

BORDO™ 6000PZ/90 black SH w/o Cylinder
