SAFETY ON STEEP TRAILS

Steep climbs, high-speed racing, all-day adventures: "Down-country" is action-packed, which means the demands on equipment also increase.

Down-country is all about going up fast, down fast and repeating. The Moventor 2.0 MIPS is virtually perfectly for the demands of mountain bikers. The MTB helmet is lightweight, well ventilated and has a deeper fit that gives more protection at the back of the head. When the trail points downwards, the ten air inlets and nine air outlets provide good ventilation. In addition to all the well thought-out features for off-road use, the MIPS model has impact protection. This is intended to protect the brain, especially if the cyclist's head hits the ground at an angle during a fall. In a fall, the brain is exposed to strong rotational movements that can lead to severe brain injuries. With MIPS, a movable low-friction plastic shell is integrated into the helmet to ensure that rotation is reduced and the head is better protected.

Technologies

- Multi-Shell In-Mould for a permanent bond between the outer shell and the shock-absorbing helmet material (EPS)
- Zoom Ace MTB: Height-adjustable adjustment system to fit the head circumference
- Ponytail compatibility: Helmet well suited for ponytail wearers
- Laterally adjustable, non-slip TriVider strap system
- Moulded lower shell for added durability
- QUIN ready - easy upgrade with the separately available QUIN chip for fall detection
- MIPS: Impact protection that protects the brain, especially when the cyclist's head hits the ground at an angle during a fall.

- GoggFit: Device that allows a pair of goggles to be fixed to the helmet when the athlete doesn't need them while riding
- Ventilation: excellent ventilation through 10 air inlets and 9 air outlets

Technical data - Moventor 2.0 MIPS velvet black L

Head size	57-61 cm
Peak	Yes
Size	L
Smart - Crash Detection	optional
Visor	No
Weight	350 g
backlight	No
color of facets	black
design color	velvet black
EAN	4003318655104
