

SHIELD™ Plus 5750L R black

QUICK, PRACTICAL AND ALWAYS RELIABLE

One grab, one click and your bike is locked - with the reliable protection of an ABUS lock.

Frame locks are the basic protection of your bike. If you're just popping into the bakery, they are a practical way to protect your bike from quick theft in one easy step.

Just like our SHIELD™ Plus 5750L. It is made of hardened special steel and the shackle offers a thickness of 8.5 millimetres. The extra large inner diameter allows the lock to be fitted to two-wheelers with tyres up to 70 mm wide.

Technologies

- 8.5 mm thick locking shackle
- The shackle, the case as well as supporting elements of the locking mechanism are made of specially hardened steel
- Accessories can easily be fitted to the locking mechanism on the lock housing
- The R (key retaining) version holds the key when the lock is open, the NR (non key retaining) version allows taking the key out of the cylinder
- ABUS Plus cylinder for high protection against manipulation attempts, e.g. lock picking

Operation and use

- Good protection at medium theft risk
- Recommended for securing good bicycles

Tips

SHIELD™ Plus 5750L R black

Seite 2 von 2

- Frame locks are a convenient protection against unauthorized use of the bicycle
- The security can be increased significantly by using the accessory 4960, 5850, 5650 Cable and Chain
- It is highly recommendable to use a second lock besides the frame lock
