IP Tube 4 MPx (2.8 mm, WL)

Art.-Nr. IPCS64511A Seite 1 von 4

DARK NIGHT: CLEAR DETAILS AT A DISTANCE

This IP-Tube is a LAN camera with 4 MPx resolution and full colour day/night function. With its white light LEDs in IP67 housing, it is designed for indoor/outdoor use by day and night. Mobile access to the camera via ABUS Link Station app.

Top surveillance: strong in the dark

Clear colour images in total darkness thanks to full-colour day/night technology - rich in detail for solid evidence. The slightest residual light is effectively amplified by the special lens and the extra light-sensitive image sensor. The white light LEDs provide a touch of extra light for the image sensor even at long distances, barely visible to the eye.

2 variants for max. flexibility

The camera is available with 2 focal lengths: 2.8 mm / 108° field of view (IPCS64511A) and 4 mm / 95° (IPCS64511B).

Autom. Object recognition

The security camera distinguishes relevant movements (people, vehicles) from interferences (branches, light, etc.) - and minimises unnecessary motion alarms.

Recording and compatibility

Recording is done on ABUS NVR, VMS/software or microSD card. The camera is compatible with ABUS Secvest, Secoris and WLX Pro.

Quick start-up

Mounting with protected cable via installation box (TVAC32600). The ABUS IP Installer software simplifies the setup in the network.

Notes: Without power supply unit, because PoE.

The effective LED range varies depending on the location.

Technologies

- 4 MPx resolution (2,688 x 1,520 @ 25 fps) for crisp surveillance images
- 2.8 mm fixed-focus lens for a good overview (108° field of view)
- Detailed, highly usable colour images in the dark thanks to full-colour day/night technology; effectively amplifies even minimal ambient light using a special lens and very light-sensitive image sensor
- Discreet illumination of the field of view with white-light LEDs (up to 50 m range) for accurate colour images in total darkness (e.g. indoors); touch of illumination for the light-sensitive image sensor (barely visible to the human eye)
- Object recognition (human & vehicle): Video content analysis with fully automatic differentiation between people/vehicles and interferences (branches, light, etc.)
- Optional output of 3 video streams in ideal resolution for, e.g., live image, recording, mobile access, etc.
- Sturdy, weatherproof housing (IP67)
- Supports H.264, H.265, MJPEG (incl. Dynamic GOP)
- microSD card slot for internal data storage, encrypted for high data security (optional)
- 12 V DC & PoE (802.3af)
