

LAYING DOWN THE LAW TO THIEVES

With the GRANIT™ Power 58, you can cross off all your worries about theft.

It is no coincidence that this 18mm U-lock ranks a respectable level 18 in the ABUS GLOBAL PROTECTION STANDARD®. When you lock the GRANIT™ Power 58, the shackle double-locks into the lock body. Then there's the hardened special steel, which reaches into its equal hardened counterpart, all of which leaves thieves wanting.

The ABUS XPlus cylinder, which is protected against picking, is hidden behind a manual cover, protected against contamination and corrosion. Ultimately, the GRANIT™ Power 58 should serve you well for a long time.

Technologies

- 16 mm round shackle (18 mm with coating)
- Double-locking mechanism securing the shackle in the lock body
- The shackle, the lock body and the structural parts of the locking mechanism are manufactured using specially hardened steel
- ABUS XPlus cylinder for exceptionally high protection against manipulation attempts such as picking
- Two keys are included in the scope of delivery
- Manual cover to protect the keyhole from dirt and corrosion
- ABUS Code Card for additional and replacement keys

Operation and use

- Excellent protection where the risk of theft is high

-
- Recommended for protecting high-value motorbikes

Tips

- You can order several one-key-fits-all locks. That means that a single key or mechanism can be used for several locks
- U-locks are one of the most difficult lock types to defeat
- The security of your motorbike can be considerably increased by using a connection point (e.g., chain)
