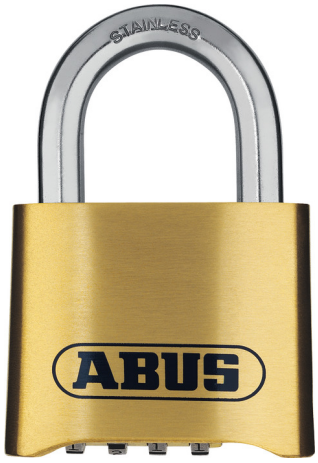
180IB/50



WEATHERPROOF AND ROBUST

Our padlock 180IB is a weatherproof lock with numerical code for outdoor use.

If you want to secure medium value assets or objects with a medium risk of theft in the outdoor area, the combination lock 180IB can be a good solution for you. In coastal areas, near ports or on the high seas, the 180IB reliably secures your valuables. The lock body is made of forged brass, the shackle of high-quality stainless steel. This means that the lock is particularly well protected against water. It can only be opened with an individually defined four-digit number code.

Technologies

- Body made of solid forged brass
- Shackle made from stainless steel
- 4-digit, individually resettable code
- Inner components made of non-corrosive materials
- Precision locking mechanism with additional tampering protection

Operation and use

- Security for items/goods of medium value or where there is an average risk of theft
- Ideal for severe weather conditions (e.g., in sea and port areas, for securing vehicles and boats in outdoor use)
- For securing doors, gates, lockers, tool boxes, cellar windows, sheds, switch boxes, cupboards, etc.

Variants

- Sizes: 50 mm
