

GRANIT™ Detecto XPlus™ 8008

Technologies

- 16 mm locking bolt
- The bolt and the structural parts of the locking mechanism are made of specially hardened steel
- Alarm function which emits a 100 dB noise for 15 seconds and then automatically re-arms itself
- 3D position detection – detects vibrations and the slightest movement in all three dimensions and triggers the alarm
- Acoustic signal indicates battery status and active status
- ABUS XPlus cylinder for the greatest protection against tampering, e.g. picking
- Two keys are included, one of which comes with an integrated LED torch
- Manually operated keyhole cover to protect against dirt and corrosion
- ABUS code card for spare and replacement keys

Usage

- Excellent protection for when there is a high risk of theft
- Recommended for securing expensive motorbikes

Tips

- This lock can be ordered keyed-alike with other locks. This means that one key can fit several locks
- A CR2 battery for the electronics is included
- Brake disc locks are the most compact type of motorbike lock which makes them easy to transport
- For increased security during longer parking periods, it is advisable to also secure the motorbike to a fixed object
- Thanks to the 3D detection system, the motorcyclist is alerted if the motorbike is moved from its stand with the lock still secured to the brake disc
