## FOR EVERY ADVENTURE

The “Made in Italy” ABUS helmet family is growing. The PowerDome MIPS comes from the same ABUS-owned Italian production facility where our other top road helmets are produced.

The most striking feature of the PowerDome MIPS is its weight, coming in at 260g for a size medium. Fit is easily dialed in with the Zoom Ace adjustment system, and the 10 air inlets and 7 air outlets ensure you keep cool when climbing a mountain pass or riding open gravel roads on the hottest of days. The sophisticated ventilation is also supplemented by a sleek air scoop on the helmet: modeled after the PowerDome of high-performance cars. On a gravel adventure, fighting against the wind or a casual ride with friends, the PowerDome MIPS brings the Italian lifestyle to every ride. This keeps the focus on having fun on two wheels. No rules, no dress code, no pressure to perform. With this helmet, the journey becomes the destination!

## Technologies

- Aerodynamic profile, incl. rear edge at the top of the rear end
- Excellent ventilation provided by 10 air inlets and 7 air outlets
- Forced Air Cooling Technology combines front and rear vents with deep channels for a cool head - plus air scoop (top) for the Venturi effect
- FlowStraps: aerodynamic, flutter-free and skin-friendly webbing
- In-Mould for a permanent bond between the outer shell and the shock-absorbing helmet material (EPS)
- Zoom Ace: finely adjustable, height-adjustable adjustment system with easy-grip adjustment wheel for individual fit
- Helmet fits well on ponytail wearers - height-adjustable adjustment system at the back of the head creates space

for ponytails

- Half-ring: plastic ring half enclosing the head and connected to the adjustment system - enables size adjustment
- MIPS: Impact protection that protects the brain, especially when the cyclist's head hits the ground at an angle during a fall
- Made in Italy

## Use and application

- Lightweight adult helmet for use on road bikes or gravel bikes
- Great fit for all those for whom fun riding is the priority
