

FOR HIGH SAFETY REQUIREMENTS - WATER-PROTECTED

The ABUS Brass 83WPIB padlock offers unparalleled weather resistance, making it a perfect choice for outdoor use, including boats and ships.

Constructed with a solid brass lock body coated with synthetic material and a rustproof shackle crafted from hardened stainless steel, this padlock boasts exceptional corrosion resistance and can withstand harsh weather conditions. Additionally, its cylinder protection includes a drainage channel that efficiently directs moisture away from the lock's interior, ensuring lasting reliability and durability.

/crlf

Technologies

- Lock body made of solid brass
- Stainless-steel shackle
- As required, either automatic locking = locking without a key by pressing down on the shackle, or key-retaining = locking only with a key (Z-bar)
- Extremely weather-resistant due to the full plastic coating, including cylinder protection and sealed shackle holes; drainage channels transport moisture that has penetrated the lock back out
- Shackle can be exchanged within seconds
- RK: cylinder can be re-keyed to match an existing key
- Shackle can be exchanged within seconds
- Precision pin cylinder

Use and application

- To secure assets and objects of greater value or those at a high risk of theft
- Suitable for industrial or commercial doors/gates, warehouses, trailers, containers and garages
- Ideal for severe weather conditions (e.g., in sea and port areas)
- Extremely flexible: can be adapted to a wide range of requirements in a short space of time

Variants

- Size: 2 3/32"; Size: 53 mm"
- For Figure 8 cylinder with cylinder

Technical data - 83MAR/45

Depth e	55/64 inch
Height f	3 25/64 inch
Horizontal clearance b	59/64 inch
