HIGHLY FLEXIBLE PROTECTION

The Platinum Chain 34 CS/55 10KS manages the security of your motorbike with ABUS' proven locking technology.

With a 10mm square chain you can flexibly connect your bike to a fixed object of your choice when you park. The Platinum Chain 34 CS/55 10KS's padlock is hard to crack thanks to its hardened shackle and additional shackle protection. The built-in ABUS pin cylinder, made from hardened steel, provides good anti-drill protection.

And when you do not need the Platinum Chain 34 CS/55 10KS, it simply disappears compactly under the seat or in your motorbike pannier.

Technologies

- Hardened 25/64" square chain and a high quality ABUS padlock provide all-round security
- Lock with hardened shackle and housing as well as extra shackle protection
- Proven ABUS pin cylinder, with hardened steel providing all-round anti-drill protection
- The chain, the shackle, the padlock body as well as supporting elements of the locking mechanism are made of special hardened steel
- 25/64" strong chain with fabric sleeve to prevent damage to the motorbike's paintwork
- Two keys are supplied with the lock
- Double bolted 7/16" shackle in the lock body
- Shackle guard protects against attacks with tools

Use and application

Platinum Chain 34CS/55/10KS110 black

Seite 2 von 2

-
- Good protection when there is average risk of theft
 - Recommended for protecting light motorbikes and scooters from an average risk of theft

Tips

- Lock-chain combinations are a good solution for attaching motorbikes to fixed objects
- To limit the possibility of brutal attempts to smash the chain, it is best not to place it on or near the ground
