

# GRANIT™ CityChain XPlus 1060/110 black

## Technologies

- 25/64" hexagonal chain with textile sleeve to protect against damage to the paintwork
- ABUS (patented) Power Cell technology offers the highest protection against hitting and pulling attacks
- ABUS Power Link technology (patented) allows for a direct connection from the chain to the Power Cell
- Interwoven coating of the lock body to protect against brutal methods of attack
- The chain, the lock body and supporting elements of the locking mechanism are made of specially hardened steel
- ABUS XPlus cylinder for the highest level of protection against tampering, e.g. picking
- Two keys are included in the scope of delivery
- Cover to protect the keyhole from contamination
- ABUS Code Card for additional and replacement keys

## Usage

- Good protection against medium risk of theft
- Recommended for securing motorbikes and scooters
- The longer the chain, the easier it is to attach to a fixed object

## Tips

- You can order several one-key-fits-all locks. This allows you to use a single key in conjunction with multiple locks/locking mechanisms
- Very easy handling, because only one end of the chain has to be locked
- For secure transportation we recommend the Transport Bag ST1010 (only fits 43 5/16" and 55 1/8" chain lengths)
