

BORDO CENTIUM™ 6010/90

Technologies

- 13/64" thick bars, synthetic coating to prevent damage to paintwork
- Stainless-steel body with manually operated keyhole cover to protect against dirt
- The bars are made of specially hardened steel
- Bars are linked with special rivets
- ABUS Plus cylinder for a high level of protection against tampering, e.g. picking

Usage

- Great protection for when there is a high risk of theft
- Recommended for securing good-quality bicycles
- The longer the chain, the easier it is to lock the bicycle to a fixed object

Tips

- This lock can be ordered with other keyed-alike locks, all of which are operated using the same key or locking method
- BORDO™ family: Perfect combination of durability, flexibility, weight and transport dimensions
