

# NutFix™ M10 silber

Page 1 of 3

## Technologies

- Secure locking thanks to innovative gravitation technology
- Proven technology for a high level of picking protection
- Can be installed using a standard SW 15 open-end spanner
- The anodised surfaces of the caps, available in a range of colors, provide long-term protection against corrosion
- Nuts manufactured from high-quality stainless steel

## Usage

- Recommended for securing medium- to high-class bicycles

## Tips

- To prevent the NutFix™ Component Security Device from being opened, the bicycle must always be standing, attached to a fixed object, perhaps with an ABUS U-lock or BORDO™
