

My scooter belongs to me

Simply park your scooter, attach the brake disc lock and that's it: The 305 makes securing your scooter a simple task.

The 5mm locking bolt made of specially hardened steel and the impact-resistant cast metal lock body are excellent deterrents to thieves. The ABUS quality cylinder of the 305 makes unauthorised access anything but easy.

The user-friendly automatic locking mechanism makes daily use enjoyable: just push the button and your scooter is secure. Two reversible keys are also included for even greater convenience. The keyhole also comes with a manually operated cover to prevent dirt and corrosion from damaging the device.

Technologies

- 13/64" locking bolt
- The locking bolt is made of specially hardened steel
- The lock body is made of impact-resistant cast metal
- Simple automatic locking mechanism with large push button
- ABUS quality cylinder with easy-to-use reversible key
- Two keys are included in the scope of delivery
