

GRANIT™ Extreme 59/180HB260

Technologies

- 5/8" square parabolic shackle
- Double-locking mechanism securing the shackle in the lock body
- The shackle, the lock body and the structural parts of the locking mechanism are manufactured using specially hardened steel
- ABUS XPlus cylinder for exceptionally high protection against manipulation attempts such as picking
- Two keys are included in the scope of delivery, one of which is an LED torch key
- Manual cover to protect the keyhole from dirt and corrosion
- ABUS Code Card for additional and replacement keys

Usage

- Excellent protection where the risk of theft is high
- Recommended for protecting high-value bicycles and motorbikes

Tips

- You can order several one-key-fits-all locks. That means that a single key or mechanism can be used for several locks
- U-locks are one of the most difficult lock types to defeat
- The security of your motorbike can be considerably increased by using a connection point (e.g. chain)
