

GRANIT™ Power XS 67/105HB50 yellow 12KS120 Black Loop

Page 1 of 3

Technologies

- Solid 15/32" chain with textile sheath to prevent damage to paintwork
- 35/64" shackle (43/64" with sheath)
- Double-locking mechanism securing the shackle in the lock body
- The chain, the lock shackle, the lock body and supporting parts of the locking mechanism are made of specially hardened steel
- A soft silicone case prevents scratches
- ABUS XPlus cylinder for the highest level of protection against tampering, e.g. picking
- Two keys are included in the scope of delivery
- ABUS Code Card for additional and replacement keys

Usage

- Excellent protection where the risk of theft is high
- Recommended for protecting high-value motorbikes

Tips

- You can order several one-key-fits-all locks. This allows you to use a single key in conjunction with multiple locks/locking mechanisms
- Lock-chain combinations are a great solution for attaching motorbikes to fixed objects
- The loop chain allows optimum use of the chain's length
- Very easy handling, because only one end of the chain has to be locked
- Two in one - the lock can also be used separately from the chain
- To limit the possibilities of brutal attacks, it is recommendable to avoid laying the chain on or close to the ground
- For protective transport, we recommend the ST1010 lock bag
