

Gas Bottle Lockout P606

Seite 1 von 1

SECURE GAS CYLINDERS AGAINST UNINTENTIONAL ACCESS

Aligning itself with the LoTo philosophy, the valve cover can smoothly slide down from the top like a sleeve and firmly sealed from the bottom. Once completed, it is confidently secured using a padlock.

Technologies

- High-quality polypropylene: long-lasting, robust and non-conductive
- Warning sticker included
- Holds 1 padlock with up to 23/64" shackle diameter

Use and application

- Block access to gas bottles and connections during maintenance

Variants

- Color: Red
