

SECURE COMPRESSED AIR CONNECTIONS AGAINST UNINTENDED USE

Made from fiber-glass reinforced nylon, the compressed air lockout is a long-lasting robust and non-conductive design that can be attached to three different connections for most common compressed air couplings.

Technologies

- Fiber-glass reinforced nylon: long-lasting, robust and non-conductive
- 3 different connections for most common compressed air couplings with up to 19/32" outside diameter
- The hole in the middle can be used to attach and store the lockout device directly at the connection
- Holds 1 padlock with 1/4" and 1 padlock with 9/32" shackle diameter per connection

Use and application

- Block access to compressed air connections during maintenance

Variants

- Color: Red

Technical data - P603

Weight [lbs]	0.06 lbs
color	red
