

FOR TRAVEL TO THE USA

When you're planning a trip to the United States or traveling coast to coast, the 147TSA luggage lock is an excellent choice for safeguarding your belongings during your flight.

The Transportation Security Administration (TSA) occasionally needs to inspect luggage during airport security screening if they can't clearly identify an item. TSA personnel possess master keys that fit TSA-approved locks, ensuring that your suitcase lock remains intact. You can lock and unlock your case as needed, providing peace of mind throughout your journey.

Conventional padlocks run the risk of being forcibly broken by customs officials, as they lack TSA compatibility. This action is authorized but leaves your suitcase vulnerable to opportunistic thieves.

A three-digit numerical code secures our lock, featuring a plastic body and a cable bracket. It also includes an indicator that signals whether it has been opened using a TSA key. This ensures both security and convenience for your travel needs.

Technologies

- Lock body made from plastic
- Shackle diameter 1/8"
- Individually resettable 3-digit code
- Visible red indicator at shackle: lock was opened by TSA. To reset red indicator open lock and turn shackle by 360°
- To reset red indicator open lock and turn shackle by 360°

Use and application

- To secure valuables/goods of lower value or at a low risk of theft
- Suitable e.g. to secure luggage
- Ideal for journeys to the USA: the luggage can be opened/relocked by the US security authorities without damaging the lock
